DETAILED ACTION

This Office action is in response to the amendment received November 5, 1999.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

3. Claims 1, 3, 5 and 6 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Choi et al.

The claimed invention is drawn to a chemically amplified resist comprising a photoacid generator contained at 0.2 part to 25 parts by weight and a polymer contained a 75 parts by weight and copolymerized between compound and monomer expressed by the general formula as seen in claim 1.

Choi et al anticipates the claimed invention in Example 5.

The arguments by applicant have been noted, however claim 3 recites that components defined with suffix "y" and "z" can each be zero, thus giving a polymer having only the monomer

defined by variable "x" and any other monomer based on the "comprising" language. In view of this Choi et al remains a prior art reference which anticipates the claimed invention.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Chu whose telephone number is (703) 308-2298. The examiner can normally be reached on Monday - Friday from 9:30 am to 6:00 pm.
